hypothyroid patients. The shape
of the leaves resemble a thyroid
gland.

14th Biennial Congress of the Asian Association of Endocrine Surgeons

*“Towards evidence based
equitable care”*

March 2014

Colombo, Sri Lanka

Message from the Congress President

Endocrine surgery is a fascinating specialty and the Asian region has a large number of patients seeking surgical treatment for endocrine disorders. Asian Association of Endocrine Surgeons (AAES) endeavours to cater to the Academic needs of the surgeons dealing with endocrine diseases in the region and beyond. Sri Lanka is honoured to host the 14th Biennial congress and the programme will be academically

rewarding and diverse as in the past. The Congress will be held under the auspices of the College of Surgeons of Sri Lanka in collaboration with the endocrine society of Sri Lanka.

Several world authorities will be invited as resource persons and in addition the delegates would be able to enjoy the cultural & social programmes that will be part of the Congress.

Delegates would also be able to tour this resplendent Island and enjoy the rich culture and the traditional Sri Lankan hospitality.

We are confident that the congress will truly be a memorable event.

Looking forward to welcoming all of you to the 14th Biennial Congress of the Asian Association of Endocrine Surgeons.

Prof. Ranil Fernando MS ,FRCS(Edin) FRCS(Eng)

FCSP (Pakistan)
